

Project 3 - Fixture

October 23, 2025 9:17 PM

- $\frac{1}{8}$ " plywood backing w/ 3D printed clips + motor mounts.

- $\frac{1}{4}$ " plywood base w/ standoffs
↳ use Bearings.

- 2 x Stylus control.

- 1 x flip/shake.

- Arduino Uno R4 wifi to control all motors + communicate w/ RPI 5.

- RPI 5 with webcam

- direct wireless communication.

Not Shown

- Gravity Sensor
↳ track rotation

- 2 x Piezo Buzzers
↳ Assist Erase

- Motor Driver/Control Board
↳ 5V for
↳ Arduino R4 Wifi
↳ Driver Burs
↳ 2 x Stepper
↳ 1 x DC/servo
↳ Sensors
↳ Monitor Cam?

Features

- x/y control of stylus

- flip + shake platform to erase
↳ Buzzers on while shaking

- sense/control flip using gravity sensor

- Watch user + translate notions into stylus movement.
